**Rev.Fr.Dr.Rubin Thottupurathu Jose**  
**Head of the Department**

## **DECLARATION**

I hereby declare that the project report “**TIT-TAT**” is a bonafided work done at Amal Jyothi College of Engineering, towards the partial fulfilment of the requirements for the award of the Degree of Regular Master of Computer Applications (MCA) from APJ Abdul Kalam Technological University, during the academic year 2021-2022.

**Date: 22/02/2022**

**KANJIRAPPALLY**

**VIVIN V ABRAHAM**

**Reg. No: AJC20MCA-2088**

## ACKNOWLEDGEMENT

First and foremost, I thank God almighty for his eternal love and protection throughout the project. I take this opportunity to express my gratitude to all who helped me in completing this project successfully. It has been said that gratitude is the memory of the heart. I wish to express my sincere gratitude to our manager **Rev. Fr. Dr. Mathew Paikatt** and Principal **Dr. Lillykutty Jacob** for providing good faculty for guidance.

I owe a great depth of gratitude towards our Head of the Department **Rev.Fr.Dr. Rubin Thottupurathu Jose** for helping us. I extend my whole hearted thanks to the project coordinator **Ms. Sona Maria Sebastian** for their valuable suggestions and for overwhelming concern and guidance from the beginning to the end of the project. I would also like to express sincere gratitude to my guide, **Ms. Sona Maria Sebastian** for her inspiration and helping hand.

I thank our beloved teachers for their cooperation and suggestions that helped me throughout the project. I express my thanks to all my friends and classmates for their interest, dedication, and encouragement shown towards the project. I convey my hearty thanks to my family for the moral support, suggestions, and encouragement to make this venture a success.

VIVIN V ABRAHAM

## **ABSTRACT**

The real power of this project is not just bought and sell something, but in the formation of stronger relationships with buyer and seller to delivering of a high level of service and support, which in turn improves organization services and its goodwill. The TIT-TAT Project is a software application which avoids buying and selling of used useful products on the basis of real money. This website keeps the data in a centralized way which is available to all the users at the same time. It manages historical data in database.

New thing that included in this project is that the customers can buy or sell products without any transaction of money in any means. And also, the customer's product is verified and evaluated and by an evaluator based on the details they provided. Customers can set their demanded product based on the value of their product with needs and specifications.
